Itineraries Training 2

To do before the next session :

1. Review your own training session video.
2. Watch/read all resources available for the Publishing Training before the next session.
3. Send your Implementer an example of your Email booking template.
4. Create and edit more test itineraries - the more you practice the better you will understand the process.

Please ensure that all tasks are completed well in advance of the next session to allow the Implementer time to complete their tasks and review your information.
